ATLANTIS HD

VIDEO DOCUMENTATION SYSTEM

Smart Image Processing

Overlay the image with a hospital logo or patient details. Enhance the image with brightness & contrast. Never miss a moment with the pre-record functionality.

Media Management

Managing your media is simple with Atlantis HD. Access the EPR, HIS or PACS and be part of the hospital. Connect and share with one touch.

Balance Disk Space and Quality

Atlantis HD allows two simultaneous recordings. The complete intervention can be recorded at archiving quality using minimal disk space. Important phases are recorded in best quality.

Quick Report Generator

Finish your work in style. After your intervention a report, using a personalized template, is available for final editing.

Intuitive Interface

Four buttons guide you through the entire workflow: planning, intervention, review and finish. Easy for any user.

Instant Backup

Be 100% sure of your data. Atlantis HD provides instant back-up when inserting a USB stick.

ATLANTIS Box HD

Compatible

Connect Atlantis HD to any medical imaging device. Control its functions using the buttons of the linked camera, the Atlantis HD buttons or footswitches.

Full HD

Get the best out of your images. Atlantis HD Box provides full HD input and full HD output. You won't miss a detail with this 1920x1080 resolution.

Medical Grade

The aluminium case is fluid resistant and passively cooled. The box comes with a medical grade power supply.

Share

Connect to the hospital and integrate all your work. Atlantis HD uses DICOM and other standards, which makes PACS integration possible.

Maintenance

Atlantis HD software can be upgraded on a regular basis. A flexible license system allows easy implementation and updates.

Open Platform

Atlantis HD is compatible with any environment using IHE standards. Choosing for an open platform makes your investment future-proof.

Teach & Educate

An image says more than a thousand words. Atlantis HD is a part of your medical workflow and can be used for education and training.

Cost Effective

Atlantis HD is an affordable solution to integrate all video sources with the HIS/ PACS system. The system can easily be installed in the DOR.

Instant Back-up

Atlantis HD gives you a unique feature. You can record to the hospital network and back-up simultaneously on a USB-stick.
